

```
// bloc.dart

import 'package:flutter_bloc/flutter_bloc.dart';

import '../domain.dart';
import '../reduceable.dart';

class MyAppStateBloc extends Bloc<Reducer<MyAppState>, MyAppState> {
  MyAppStateBloc()
    : super(
        const MyAppState(title: 'bloc', counter: 0),
      ) {
    on<Reducer<MyAppState>>((event, emit) => emit(event(state)));
  }
}
```
